**The monthly monitoring report on demolitions and Israeli  
violations against Palestinian homes and installations**

**For the period 11/1 - 30/11/2020**

# Human Rights and Democracy Media Center SHAMS

December 2020

Prepared by: Muhammad Al-Najjar and Renad Moussa

**This report aims to monitor violations by the Israeli occupation forces against Palestinian homes and installations, which include demolitions, evictions, confiscations, or various notifications. The report was prepared according to field information monitored by the staff and researchers of the Center for Human Rights and Democracy Media Center "SHAMS", for the period between 11/1/2020 - 31/11/2020, and it is the outcome of the relevant monitoring efforts carried out by the "SHAMS" Center staff in the geographical scope represented by the West Bank, including East Jerusalem.**

- **November general statistic**

During the month of November 2020, the "SHAMS" Center monitored the targeting of the Israeli occupation forces (214) facilities owned by Palestinians, whether through demolition, confiscation, eviction, or the distribution of notices with the intention to target these facilities in the future.

The most prominent violations centered on demolitions, which affected 134 facilities. (4) Of them, their owners were forced to self-demolish them under threat of fines and imprisonment. Meanwhile, the occupation forces confiscated and seized one facility in Khallet Hassan area of Bidya municipality in Salfit governorate.

They forced (13) families of residents of the Al-Burj and Al-Matalia areas in the northern Jordan Valley to leave their residential tents from 8:00 until 18:00 on the same day under the pretext of carrying out military exercises, which constitutes a temporary evacuation.

In terms of notifications, the occupation forces notified (79) facilities for demolition, confiscation, or eviction, most of them are residential, in addition to other commercial and agricultural facilities.

- **Distribution of the targeted establishments according to their type**

The facilities that have been targeted with different types of violations, whether by demolition, confiscation, eviction, or notifications, are distributed according to the following:

**Table No. (1): The targeted establishments in terms of type**

<b>Type of facility</b>	<b>Number</b>
Houses & Residential rooms	35
Residential Barracks	29
Residential tents	62
Residential Caravans	11
Sanitation rooms and units	2
Water wells	7
Retaining walls	3
Car washers	1
Commercial establishments	7
Pens and stockyards	40
Stores	6
Agricultural rooms	4
Caravan / agricultural barracks	4
greenhouses	1
Stairs	1
wooden shed	1

- **Distribution of facilities targeted for demolition according to the governorates**

As for the geographical distribution of demolitions according to the regional indicator, the peak of the targeting was in Tubas governorate, with (84) facilities that were demolished, followed by Jerusalem governorate with (15) facilities and then Hebron governorate, with (11) facilities that were demolished. Note that the facility includes any type of what is mentioned in Table No. (1). Where the "SHAMS" Center monitored the demolitions according to the governorates in which they took place as follows:

**Table No. (2): the distribution of the facilities that were demolished according to the governorates**

<b>Governorate</b>	<b>Number of demolitions</b>
Tubas	84 Facilities
Jerusalem	15 Facilities
Hebron	13 Facilities
Bethlehem	8 Facilities
Jericho	4 Facilities
Nablus	2 Facilities
Ramallah	2 Facilities
Jenin	3 Facilities
Qalqilia	2 Facilities

- **Distribution of the establishments targeted by the notifications according to the governorates**

In view of the notifications, whether of demolition, confiscation, eviction, or stopping construction work and other violations that prevent Palestinians from realizing their right to build, reconstruct and invest their facilities, the number of notifications reached (79) notifications in different regions this month. The notifications indicate directions for the localization of the upcoming Israeli targets of Palestinian facilities. The order of the governorates targeted by the notifications was as follows: Tubas governorate, followed by Jericho and Jordan Valley (Al-Aghwar) governorate, and then Hebron governorate according to the following table:

**Table No. (3): Distribution of the notified establishments according to the governorates**

<b>Governorates</b>	<b>Number of Notified Establishments</b>
Tubas	33 Establishments
Jericho and Jordan Valley (Al-aghwar)	17 Establishments
Hebron	16 Establishments
Bethlehem	3 Establishments
Qalqilia	3 Establishments
Jerusalem	2 Establishments
Salfit	1 Establishment
Nablus	1 Establishment
Jenin	3 Establishments

- **The target population**

since these operations that target Palestinian facilities do not take place in an isolated area from the population. The number of people affected by it during the month of

November reached (84) at least, including a large number of children, reaching (45) children, and a number of women, the groups that suffer most in these cases.

- **Arguments for violations**

As for the arguments used by "Israel", the occupying power, in its attempt to legalize the crime. In November, the number of facilities that were demolished, confiscated, evacuated, or notified under the pretext of building without a permit in Areas C reached (188) establishments out of (214) establishments. 4 facilities were targeted as a collective punishment against the families of those accused of resisting the occupation forces, and another one was also targeted under the pretext of its proximity to the security fence, and another under the pretext of building on archaeological land, 4 facilities Under the pretext of being near the military headquarters in the city of Qalqilya, while (18) facilities were targeted for evacuation under the pretext of holding military exercises.

- **Self-demolition**

By focusing on self-demolition, which represents a type of complex and centralized oppression. Whereby Palestinian citizens, the vast majority of whom are Jerusalemites, are forced to demolish their houses and facilities by their own hands, under threat of imposing heavy fines on them and bearing the cost of demolition doubled in case they did not do so. The previous approach of the Israeli forces is a striking identification with the tools of the racist Israeli system from courts, local bodies, army and police forces, and constitutes a crime in which victims are forced to participate in its execution against themselves.

The number of facilities that the occupation authorities forced their owners to self-demolish during the month of October reached two establishments,

As the number of establishments that the colonial system forced their owners to demolish them this month reached (4) facilities. It is divided between two houses and a shop. In the Jabal Al Mukaber neighborhood of Jerusalem, the occupation authorities forced the citizen Muhammad Qanbar and his son Attia to demolish their homes in the Qanbar neighborhood of Jabal Al Mukaber town, southeast of occupied East Jerusalem, in implementation of the Israeli occupation municipality's decision, under the pretext of building without a permit. Citizen Muhammad Qanbar, his wife and two sons have lived in the house for 7 years, in addition to his son Attia and his wife in an adjacent house, and the total area of the two houses is about 170 square meters.

The occupation authorities forced the citizen: Ayman Jaabis, in the Jabal Mukaber neighborhood in Jerusalem, to personally demolish part of his business, in order to avoid paying heavy fines if the occupation authorities carried out the demolition, under the pretext of not being licensed.

The occupation forces also forced Mohammed Sandouka, from the Wadi al-Jouz neighborhood in Jerusalem, to personally demolish his house, after notifying him earlier, in order to avoid paying heavy fines in the event that the occupation authorities carry out the demolition, under the pretext of not having a permit.

These operations usually take place in the city of Jerusalem, where the greatest targeting is in the context of Judaization, and the wide influence of the various occupation authorities.

## Appendix

### A detailed table of violations against Palestinian facilities during November 2020

No.	Description of the violation	Date	The location of the violation	The party whose right has been violated
