**Monthly Monitor Report on Demolition Processes and Israeli Violations against
Palestinians' Households and Facilities.**

Within th Within the period: 1/1-31/1/2021

by: Mohammad Najjar & Rinad Mosa

This report was written for the purpose of monitoring violations conducted by the Israeli occupation forces against Palestinians' households and facilities, including demolitions, evictions, confiscations, and notices of such diverse activities in the future. The report was prepared in accordance with ground observations collected by staff members and researchers of the Human Rights & Democracy Media Center "SHAMS" throughout the period 1/1/2021-31/1/2021 and is the outcome of relevant monitoring efforts carried out by SHAMS within the geographical scope defined as the West Bank and which includes Eastern Jerusalem.

-The General January Survey

Throughout January of 2021, **"SHAMS "** Center has monitored the targeting of **(160)** facilities owned by Palestinians by the Israeli occupation forces, either in the form of demolition, confiscation, eviction, or distribution of notices that foreshadow similar practices in the future.

The most prominent violations came in the form of demolitions, which targeted **(60)** facilities. Out of those, the owners of 3 facilities were forced to demolish them on their own as they were threatened with fines and jail-time. Furthermore, the occupation forces confiscated and seized 6 facilities throughout the governorates of Jerusalem, Hebron, and Tulkarem. Near the entrance of the village of Nabi Samwil in the Jerusalem governorate, the occupation forces confiscated two tents, mobile medical equipment and camping gear owned by the citizens Anas Ubaid and Majid Isa Barakat, who were in the midst of the construction of a park for their fellow citizens. Near the Apartheid Wall and in an area adjacent to the village of Zeita in the Tulkarem governorate, the occupation forces confiscated a trailer park used as a store and owned by the citizen Mahmoud Taiseer Abu Al-Iz. In the village of Rakeez, located to the south-east of the town of Yatta in the Hebron governorate, the occupation forces confiscated a tin health unit owned by the citizen Muhammad Abu-'ram.

Regarding demolition notices, the occupation forces notified **(94)** facilities of future demolitions, confiscation, or forced evictions. The majority of those facilities were housing units, in addition to others that were commercial, agricultural, cattle barns, and water wells.

In addition, the occupation's Magistrates' Court of Jerusalem has handed Nitham Abu Rmouz an order to evict his home in the Batn Al-Hawa neighborhood in the town of Silwan, south of Al-Aqsa mosque, to make way for the arrival of settlers in his place on the grounds that the land upon which the house is built belongs to a group of Yemenite Jews. The occupation forces also issued a decision to demolish the home of the prisoner Muhammad Qabaha, a 2-storey building, in the town of Tura to the south-west of Jenin and within the occupied West Bank on the grounds of his conviction of the murder of a female settler.

The occupation forces have also handed eviction notices to 5 Bedouin families (from Al-Hathallin and Al-Muhammadin clans) in a Bedouin cluster near the Khushm Al-daraj region to the east of Yatta. The families are thereby forced to leave the area, remove their tents, and displace their cattle to make way for the conduction of military training in the area.

- Distribution of facilities based on their type

The targeted facilities, whether by demolition, confiscation, eviction, or notices of future practices, are distributed as follows:

Table (1): Targeted facilities based on their types:

| Type of facility | Number |
|-----------------------------------------------------------|---------------|
| Households | 32 |
| Tin housing units | 32 |
| Tent housing units | 20 |
| Trailer Parks | 5 |
| Water wells | 1 |
| Retaining Walls | 5 |
| Commercial Facilities | 34 |
| Barns and farmhouses/cattle barracks | 12 |
| Agricultural rooms | 4 |
| Greenhouses | 1 |
| Religious facility | 3 |
| Medical facility | 1 |
| Agricultural canopies | 1 |
| Building's foundational ground | 1 |
| Vegetable vendor's cart | 1 |
| A building affiliated with a local village council | 1 |
| A school | 1 |
| sewage units, facilities, and rooms | 3 |
| Stables and horse farms | 1 |
| Gas Station | 1 |

- The distribution of facilities targeted with demolition based on their location with respect to the governorates.

When it comes to the geographical distribution of the demolitions in accordance with the regional indicator, the majority of the targets were in the Jerusalem governorate, where 25 facilities have been demolished. The Jenin governorate, where 11 facilities have been demolished, came in second place, followed by the Tubas governorate, where 8 facilities have been demolished. The facilities referenced here include any of the types

mentioned in table 1, and SHAMS Center has monitored demolitions with respect to the governorates in which they have occurred as follows:

Table (2): The distribution of facilities targeted with demolition based on their location with respect to the governorates:

| Governorate | Number of demolished facilities |
|--------------------------------------|----------------------------------------|
| Jerusalem | 25 |
| Jenin | 11 |
| Tubas | 8 |
| Bethlehem | 7 |
| Jericho and the Jordan Valley | 5 |
| Ramallah | 1 |
| Salfeet | 1 |
| Hebron | 1 |
| Nablus | 1 |

- Distribution of facilities targeted with notices based on their location with respect to the governorates.

Regarding notices that notify residents of demolitions, confiscations, evictions, orders to suspend construction activities and other practices that deprive Palestinians of their right to build and invest in their facilities, **(94)** cases have been recorded in different areas. These notices point to the future concentration of the Israeli violations against Palestinians. The governorates of Nablus and Tubas came on top of the list as the following table shows:

Table (3): Distribution of facilities targeted with notices based on their location with respect to the governorates

| Governorate | Number of notified facilities |
|--------------------|--------------------------------------|
| Nablus | 26 |
| Tubas | 23 |
| Hebron | 21 |
| Jenin | 15 |
| Qalqilia | 5 |
| Bethlehem | 3 |
| Jerusalem | 1 |

- Targeted Population

Since the violations against Palestinian facilities do not take place in isolation of the population, the third indicator pertained to the targeted residents. The number of targeted residents throughout January was at least **(74)**, including a high number of children **(37)** and a few women, the suffering of whom which is amplified within the context of such violations

- Arguments employed for the violations

Surveying the arguments employed by "Israel," the occupying power, in an attempt to legitimize its crimes, we find that the number of facilities that were demolished under the pretext of unauthorized construction in areas C amounted to **(55)** (out of **60** facilities that were demolished overall). **(5)** other facilities were targeted under the pretext of their location within an area is to be allocated for Israeli military training.

Regarding the notices, the majority of the arguments used pertained to unauthorized construction in areas C. Other arguments were used as well. For example, the occupation forces have ordered the citizen Ali Saleem Mousa, a resident of Al-Khadr town to the south of Bethlehem, to suspend his construction activity in the Jabal Abu Soada area on the grounds that it is an archeological site. In another case, Nitham Abu Rmouz was ordered by The occupation's Magistrates' Court of Jerusalem to evict his home in the Batn Al-Hawa neighborhood in the town of Silwan, south of Al-Aqsa mosque, in order to replace him with settlers on the grounds that the land upon which the house is built belongs to a group of Yemenite Jews. In the town of Tura to the south-east of Jenin and within the occupied West Bank, the occupation army has issued an order to demolish the 2-floor home of the prisoner Muhammad Qabaha on the grounds of his conviction of killing a female settler, an order that is characterized by the policy of collective punishment to curb acts of resistance against the occupation. Near the Khushm Al-daraj region to the east of Yatta, the occupation forces handed eviction notices to 5 Bedouin families from Al-Hathallin and Al-Muhammaddin clans and ordered them to leave the area, remove their tents, and displace their cattle to make way for the conduction of military training in the area. As for confiscation, the occupation forces have confiscated 6 facilities across the provinces of Jerusalem, Hebron and Tulkarem, all under the pretext of unauthorized construction in areas C.

- Self-demolition

Self-demolition represents a particular type of systemic and concentrated subjugation. Palestinian residents of Jerusalem are forced to demolish their own homes and facilities under the threat of hefty fines. If they refuse to do so, they are over-charged with the demolition expenses of their own facilities. This practice noticeably displays the alignment of all the components of the racist Israeli establishment: courts, local bodies, police and army forces. It also is a crime the victims of which are forced into committing against themselves.

Throughout January, the number of facilities whose owners were forced to self-demolish amounted to 3, all of which are located in Jerusalem: two homes, and building's foundational ground (under construction). In Beit Hanina, the occupation forces coerced the resident Fawwaz Abu Hammad under the pretext of unauthorized construction into demolishing his own home, where his 7-member family resides, after he had been notified beforehand that if he were to refuse, the occupation forces would carry out the demolition and he would face extremely hefty fines as a result

In the Ras Al-Amud neighborhood in the city of Jerusalem, the occupation authorities forced the resident Hatem Shaheen Al-Salaymeh to demolish a portion of his home on the grounds of unauthorized construction. Al-Salaymeh, who lives in the house with his wife and 3 children, the oldest and youngest of whom are 11 and 4 years old respectively, had been notified prior that he would face hefty legal fines if the demolition process were to be carried out by the occupation authorities.

in the Jabal Mukaber neighborhood of Jerusalem, the occupation authorities forced the resident Amjad Ja'abees to self-demolish a building's foundational ground (under construction) and remove a barbed fence he had erected around his property on the grounds that they are an unauthorized construction. He had also been notified earlier that he would face hefty fines if the demolition process were to be carried out by the occupation forces.

- Appendix: a detailed table of the violations targeting Palestinians' facilities throughout January of 2021

| # | Description of the violation | Date | The location of the violation | The party whose right has been violated |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-------------------------------------------------------------------|------------------------------------------------|
| 1. | the occupation forces handed eviction notices to 5 Beduin families from Al-hathallin and Al-Muhammadin clans and ordered them to leave the area, remove their tents, and displace their cattle to make way for the conduction of military training in the area | 31/1/2021 | Khushm Al-daraj region to the east of Yatta, Hebron Province | Al Hathallin and Al-Muhammadinas Bediun Clans |
| 2. | The occupation forces demolished an agricultural room in the area of Khallat Al-Nahlah near Wadi Rahal village, owned by: Na'im Muhammad Mustafa Radi | 28/1/2021 | Khallet al-Nahlah near Wadi Rahal village - Bethlehem Governorate | Citizen Naim Muhammad Mustafa Radi |
| 3. | In the Red Valley area near Fasayil village, the occupation forces demolished 2 houses, in addition to 3 barracks owned by citizens: Ibrahim Abu Arouj and Ismail Sawarka, under the pretext of their proximity to a military training area | 28/1/2021 | Red Valley area - Jericho and Al Aghwar Governorate | Citizens: Ibrahim Abu Arouj and Ismail Sawarka |
| 4. | The occupation forces confiscated, near the apartheid wall in an area adjacent to the town of Zita, a trailer park used as a grocery store owned by the citizen: Mahmoud Tayseer Abu al-Ezz | 28/1/2021 | Zita town - Tulkarm Governorate | Citizen Mahmoud Tayseer Abu al-Ezz |

| | | | | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|---------------------------------------------------------------|-----------------------------------|
| 5. | In Abu Falah Al-Badawi community and Bir Al-Maskoub in the Al-Khan Al-Ahmar area, the occupation forces demolished 2 barracks used for raising livestock, and confiscated their equipment. | 27/1/2021 | Abu Falah Community - Khan Al-Ahmar - Jerusalem Governorate | |
