Observer Member of the Standing Human Rights Committee of the Arab League

Monthly Monitor Report on Demolition Processes and Israeli Violations against Palestinians' Households and Facilities.

Within the period 1/8/2021-31/8/2021

Human Rights and Democracy Media Center “SHAMS”

August 2021

Conducted by: Rinad Mosa

This report was written for the purpose of monitoring violations conducted by the Israeli occupation forces against Palestinians' households and facilities, including demolitions, evictions, confiscations, and notices of such activities in the future. The report was prepared in accordance with ground observations collected by staff members and researchers of the Human Rights & Democracy Media Center "SHAMS" throughout the period 1/8/2021-31/8/2021 and is the outcome of relevant monitoring efforts carried out by “SHAMS” within the geographical scope defined as the West Bank and which includes East Jerusalem

-The General August Survey

Throughout August of 2021, “**SHAMS**” Center has monitored the targeting of **(142)** Palestinian-owned facilities by the Israeli occupation forces, either in the form of demolition, confiscation, eviction, or distribution of notices that announced similar practices in the future.

The most prominent violations came in the form of demolitions, which took place in the case of (110) facilities. Out of those, the owners of (21) facilities were forced to self-demolish their own properties as they were threatened with fines and jail-time.

Regarding demolition notices, the occupation forces notified **(32)** facilities of future demolitions or confiscations. The majority of those facilities were housing units as well as other cattle barns, and storehouses.

- Distribution of facilities based on their type

The targeted facilities, whether by demolition, confiscation, eviction, or notices of future practices, are distributed as follows:

Table (1): Targeted facilities based on their types:

Type of facility	Number
Households	54
Tent Housing Units	8
Tin residential units	2
Residential rooms	4

Agricultural rooms	3
Wells, pools, and water installments	3
Commercial facilities	21
Mobile trailer park (used as kitchen)	1
Retaining and regular walls	4
Cattle barns/farmhouses	25
Car-wash	1
Mobile trailer parks	2
Storehouses	2
Mobile bathroom units	2
Tin agricultural unit	2
Baby daycare	1
Gardens and parks	1
Poultry farm	2
Water tanks	2
Religious facilities (mosque)	2
Total	138

- The distribution of facilities targeted with demolition based on their location with respect to the governorates.

When it comes to the geographical distribution of the demolitions in accordance with the regional indicator, the majority of the targets were in the Jerusalem Governorate where (44) facilities have been demolished, followed by the Tubas (24). The Hebron Governorate, where (22) facilities have been demolished, came in third place. The facilities referenced here include any of the types mentioned in table (1), and “SHAMS” Center has monitored demolitions with respect to the governorates in which they have occurred as follows:

Table (2): The distribution of facilities targeted with demolition based on their location with respect to the governorates:

Governorate	Number of demolished facilities
Jerusalem	44
Tubas	24
Hebron	22
Nablus	5
Jenin	5
Ramallah	4
Bethlehem	2
Tulkarm	2
Salfit	1
Jericho	1
Total 106	

- Distribution of facilities targeted with notices based on their location with respect to the governorates.

Regarding notices that notify residents of demolitions, confiscations, evictions, orders to suspend construction activities and other practices that deprive Palestinians of their right to build and invest in their facilities, **(32)** cases have been recorded in different areas. These notices point to the future concentrated trends of the Israeli violations against Palestinians. The governorates of Jerusalem and Hebron were the two areas where that largest number of cases was documented as the table shows:

Table (3): Distribution of facilities targeted with notices based on their location with respect to the governorates

Governorate	Number of notified facilities
Salfit	13
Bethlehem	11
Hebron	4
Nablus	2
Qalqelia	2
Total	32

- Targeted Population

Since the violations against Palestinian facilities do not take place in isolation of the population, the number of targeted residents throughout August was (142) individuals at the least including (77) children and (8) women according to the available data.

- Pretexts for the violations

Surveying the pretexts employed by "Israel," the occupying power, in an attempt to legitimize its crimes, we find that (105) demolished facilities out of this month's total of (110) demolitions were demolished under the pretext of unauthorized construction in areas (C), which are under Israeli control and yet populated by Palestinians. (5) facilities were demolished under the pretext of their presence in military training zones or firing zones (the areas are designated as such shortly before the demolition takes place). One facility was demolished as a part of the occupation's collective punishment policy it follows against people who conduct operations against it. The Israeli forces occupation coerced in the Alashqarya neighborhood in Beit Haneena in Jerusalem 5 citizens: Abdullah Taleb Khadr and his sons into self-demolishing homes they owned (a house consists of 5 departments) including 25 people (7 children), under the pretext of unauthorized construction. The occupation forces had warned Khader on an earlier occasion that they would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves. The occupation forces claim that this land owned by settlers since 1962.

As for delivered demolition notices, all (31) facilities received notices under the pretext of their presence in areas (C) or due to unauthorized construction. For example, the Israeli occupation forces delivered a verbal notice to Kufr Aldeek town in Salfit, warning residents to evacuate a sheep farm, under the pretext of its location near Badoel settlement.

- Self-demolition

Self-demolition represents a particular type of systemic and concentrated subjugation. Palestinian residents (mostly in Jerusalem, but also in other areas) are often forced to demolish their own homes and facilities under the threat of hefty fines. If they refuse to do so, they are over-charged with the costs of the demolition of their very own facilities. This practice noticeably displays the alignment of all the components of the racist Israeli establishment: courts, local bodies, the police and army forces. It also is a crime the victims of which are forced into committing against themselves.

Throughout August, the number of facilities whose owners were forced to self-demolish under the pretext of unauthorized construction was (21) out of (106) that were demolished overall. These facilities were (20) homes and (1) residential room in the Jerusalem Governorate as well as (16) houses in the city of Beit Haneena in the Bethlehem Governorate, (2) houses in Jabal Almukkaber, one house in the Alttour neighborhood and one house with one residential unit in the Silwan neighborhood. All under the pretext of unauthorized construction.

The occupation forces coerced the 7 citizen from Alradayda family(Ahmad Alradayda and his brothers: Mahmoud, Ayyoub, Sofian, Saleh, Moath and Moawya) into self-demolishing their houses in the Alashqarya neighborhood in Beit Haneena in Jerusalem, under the pretext of unauthorized construction which led to the displacement of 46 people including 32 women and 7 children. As we mentioned above, the Israeli occupation forces also coerced in the Alashaqarya neighborhood in Beit Haneena in Jerusalem 5 citizens : Abdullah Taleb Khader and his sons into self demolishing homes they owned (a house consists of 5 departments) including 25 people, under the pretext of unauthorized construction. The occupation forces had warned Khader in an earlier occasion that they would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves. The occupation forces claim that this land is owned by settlers since 1962.

The occupation forces coerced in the Alashqarya neighborhood in the city of Jerusalem sons of Subhi Aldalal into self-demolishing their three houses (consists of 13 people, most of them are children), under the pretext of unauthorized construction. The occupation forces had warned Aldalal on an earlier occasion that he would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves.

The occupation forces coerced in the Jabal Almukkber neighborhood in the city of Jerusalem citizen Oqab Ja'bees into self-demolishing his house (consists of one room), under the pretext of unauthorized construction. The occupation forces had warned Ja'bees on an earlier occasion that he would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves.

In addition, the Israeli occupation forces coerced in the Silwan neighborhood in the city of Jerusalem the citizen Muhammad Mahmoud Matar into self-demolishing a house he owned under the pretext of unauthorized construction. The occupation forces had warned Matar on an earlier occasion that he would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves. It is noteworthy that he lives with his wife and their 5 children in it.

Lately, the Israeli occupation forces coerced in the Alttour neighborhood in Jerusalem the citizen Osama Dwak into self-demolishing his house, under the pretext of unauthorized construction. The occupation forces had warned Dwak in an earlier occasion that he would have to pay extremely hefty fines if the demolition process were to be carried out by the forces themselves.
